Important Developments Expected in the Kniffin Inquest To-Day.

morning I feared something was wrong, and sent for Dr. Shannon, and went with Chief McChesney when he came to investigate. I noticed that the operating room was in a state of confusion, and saw a hatebet and a cold chiesel lying on the instrument cave. In the big front room on the third floor we saw Miss Purcelllying face downward, and I told Dr. Shannon to pick her up. When he did so stee cried: "Let me go! Let me go! afterwards, 'Run, Myra, run!'"

Regarding the relations between Dr. and Mrs. Kniffin, he said that they had always appeared to be friendly, but that he had on coheard Mrs. Kniffin quarrelling with Miss Purcell and the latter afterwards told him the row was caused because she could not eat.

The two shrewdest criminal lawyers in New Jersey have been engaged to look after the interests of the snapeets. They are Horatio N. Barton and Chauncey M. He is above suspicion in any way, but the Jersey law is a great regspecter of personal liberty.

The evidence against the suspects now in the hands of the Trenton police is meagre, and it would not be a difficult matter to secure their release on a writ of habeas cornus if they should be locked up at the present time, and if so released it would, in a measure, strengthen the

authority of the Collector and ordered that the family be returned on the Pennland last Saurday.

Edward Kemp, the druggist, who came here an Irish lad fitty years ago, without a penny to his name, hearing of the case hecame much interested. He was told that Gardner was a pauper, without money. Whereat he volunteered to give him \$100 to start with.

Then the Commissioners said that wouldn't do, as Gardner had no employment and when the \$100 was gone he would be a pauper again. Then Kenn said, "Pil give him profitable work. Pil employ his wife on my Long island farm. Send them all over."

That wouldn't do either, till Lawyer Frederic Coudert, in behalf of Kemp and justice, sued out a writ of habeas corpus against the Commissioners, returnable Monday.

Then all the parties met in Court, and it was suggested to the Commissioners that if they persisted in such silly opposition to the Collector, an officer of the Treasury Department, Secretary Windom would be likely to withdraw the contract made by him with them, and then they would be "up a stump."

The upshot was that the Commissioners came down from the tree, and the Gardners will be safely ensconced on Mr. Kemp's farm by dinner time this evening, the Commissioners having made overtures to Mr. Kemp in that direction last Monday. Otherwise they would have been compelled by Justice Morgan J. O'Brien to liberate their inoffensive prisoners anyhow.
